

UNIVERSAL

**PRODUCTION QUALITY
2018/2019**

UNIVERSAL

* Started its life as an Automotive Industry Supplier on 05/06/06 with 1 automatic lathe machine and 1 employee in a simple 35m² workshop. Since its production activities, UNIVERSAL OTOMAT has recorded specific targets and stages.

* At present, our company is serving 350m² in the first field in a single machine (machine) in 4 years, 4 units CNC machine with the latest technology quality control equipment and experienced staff is serving its customers.

* The companies that have identified themselves in the machining sector like us need different values and targets; Robustness, flexibility, continuity and quality are the foundations of these concepts since the early days of the universal vending machine.

* The universal vending team, which never compromises on quality and precision, will continue to work with great precision in the future as usual ...

UNIVERSAL
